I. CHANGE OVERVIEW

Field	Details
Change Title	User Management CRUD Operations
Application/System	VA Tech Apps
Environment	Production
Deployment Date	Date: March 24, 2026; Time: 7:00 PM – 9:00 PM
Version/Build Number	Version 2.12.0.1
Release Type	Minor Release – Includes hotfix, key functional improvements, multiple enhancements, and system-level updates that improve application performance, stability, and overall behavior.
Impact to Existing Users	Users may experience brief downtime or limited access during deployment (approx. 3.5 hours).

II. CHANGE DESCRIPTION

This production deployment includes updates to the User Management UI along with enhancements to role-based access control (RBAC) for user permissions.

Affected Module(s):

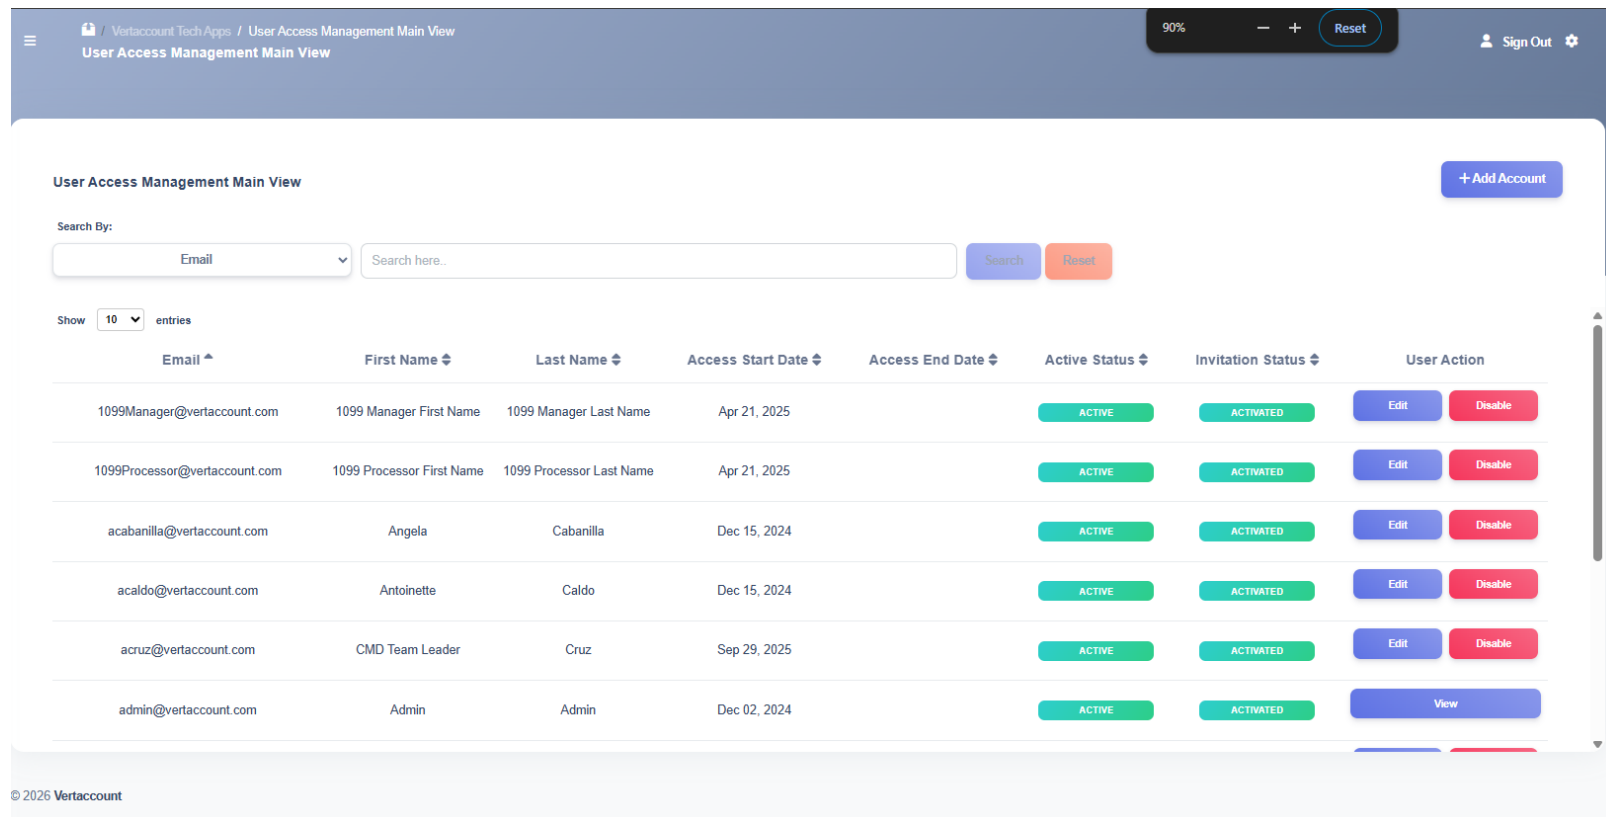

- **User Management**
- **EMD**

III. LIST OF CHANGES (WHAT’S NEW?)

#	Module	Change Type	Description	Ticket/Sprint ID
EMD (Hotfix)				
1	EMD	UI Enhancement	Add the following data to the database library so it appears in the dropdowns under the Employee Compensation & Employment Type module. Job Title 1. Vice President 2. Senior Accounting Manager Reason for Change 1. Anniversary • Add a work anniversary sequence in the report so that each anniversary reason is uniquely numbered and clearly distinguished (e.g., Anniversary 1, Anniversary 2, etc.) instead of repeating the same label.	Ticket ID: 4402407452 Sprint ID: VAPT-CURGE-4370219042
User Access Management				
2	UAM	Feature Enhancement	<ul style="list-style-type: none"> Separated UAM in a stand-alone main module. Implemented CRUD Operations – Edit, View, Disable and Reactivate) UI Standardization 	Ticket ID: NA Sprint ID: VAPT-CURGE-4370219042

V. IMPACT AND RISK ASSESSMENT

Area	Impact	Details
End Users	Low	Most changes are in the User Management and EMD. No changes on existing user access.
System Performance	Low	No significant impact.
Downtime	Low	Deployment will be coordinated to minimize disruption for live users.
Data	Low	Existing data will remain unchanged; no records will be modified.

VI. WHAT'S NOT INCLUDED

None. Mostly all identified issues will be included in this release.
